Exercise DTMCs
Further Examples (ppt)
get that mouse
machine production example
five rooms
Power Method
problem of NCD chains
implementation and convergence
"direct methods (gaussian elimination), error-sensitive"
"stepwise comput., matr*vec --> generalization"
Solutions (Repeat?)
Transient
is there always a steady state? counter examples
Stationary
Steady state
Repeat
definition
representation
memoryless
Model Examples
Gamblers Ruin / Random Walk
picture on board
Dummschatz-o-mat
repeat theory Eugen Oneigin
explain perl scripts
show MC files
demonstrate algorithm
Page Rank
google example
handout - 3 pages
ring (spam)
